Bronce Stephenson, AICP is an experienced Planner who brings creative solutions to PD&E and Planning projects. He is an AICP Certified Planner with 17 years of experience leading the PD&E/Planning Team for TBG. Bronce was previously a public sector Planning/Transportation Director, along with private sector experience managing PD&Es, serving as Environmental Lead, and Senior Social Scientist. Bronce recognizes the social, cultural, natural, and physical environmental issues involved with each project. BStephenson@balmoralgroup.us

Elizabeth Lasley, P.E. supports PD&E Studies with her expertise in transportation design and analysis as a Roadway Engineer. She specializes in: Existing Conditions Analysis, Development of Alternative Concept Designs, Alternatives Analysis, Engineering Documentation & Cost Estimates, Roadway Plans & Typical Sections, MOT Solutions, and Public Engagement.

Sofia Navarro is currently pursuing her Masters in Urban & Regional Planning and she plays a significant role in PD&E's with her experience in technical writing and research as a scientist. She is skilled in GIS and assists in creating maps for PD&E's. She supports the planning department on technical memorandums, analytical research, public engagement, and GIS.

TBG DIFFERENCE

- TBG Worked Alongside CFX to Develop the new Level 1 PEIR PD&E Process
- Certified Planning professionals with American Institute of Certified Planners (AICP)
- Municipal Planning Expertise
